Please rate your agreement with the following statements			
Statement	1 = Disagree	2 = Neutral	3 = Agree
You were satisfied with your user experience	3		
The app was easy to use (i.e., the button placement was intuitive and you were able to find what you were looking for)	3		
The app runs flawlessly and you encountered no bugs	3		
The customizable settings made the visualisations feel more personalized	3		
Each visualisation displays originality (Shows the music in an interesting way, that maybe you wouldn't have thought of before)	3		
Each visualisation is unique (No visualisation feels/looks the same as another visualisation in the app)	3		
You would use this music visualisation, outside of its testing	3		

Please answer the following questions	
Question	Answer
What feature or visualisation did you like the most, and why?	My two favorites were the Trap Nation and the WavePattern. But all of them were amazing and unique in their own way.
How do you think this app could be improved?	I think the songs list can be a list just like the features has a list. Or the user picks a song to play.
Do you have any further comments, that haven't been mentioned before?	I would love to know more about the Noise feature and how it works. Because in quite songs, it wasn't working and I thought it was just an image. Yet with songs that have loud beats, it was very nice and unique.

Thank you so much for your time! I really do appreciate it! Have a good day.
