Please rate your agreement with the following statements			
Statement	1 = Disagree	2 = Neutral	3 = Agree
You were satisfied with your user experience	3		
The app was easy to use (i.e., the button placement was intuitive and you were able to find what you were looking for)	2.5		
The app runs flawlessly and you encountered no bugs	3		
The customizable settings made the visualisations feel more personalized	3		
Each visualisation displays originality (Shows the music in an interesting way, that maybe you wouldn't have thought of before)	3		
Each visualisation is unique (No visualisation feels/looks the same as another visualisation in the app)	3		
You would use this music visualisation, outside of its testing	3		

Please answer the following questions	
Question	Answer
What feature or visualisation did you like the most, and why?	I liked how everyone has the option to choose how they want to display their music.
How do you think this app could be improved?	I liked everything about it. However, to make it feel like even more app-like, the button for changing the display (1, 2, 3, 4, 5), could look more like a button. It gives it more of dummy-safe feeling. Because initially when I saw those options, I didn't whether you could click on them or not.
Do you have any further comments, that haven't been mentioned before?	Overall, the whole app gave off a very nice energetic vibe. That's very important for a music app.

Thank you so much for your time! I really do appreciate it! Have a good day.
